Company Profile

One of the leading companies in MEP Field

Part of Kannan Ravi Group www.kannanravi.com
Chairman Message

As a leading MEP company in the UAE, Al Shumookh Electro Mechanical Works L.L.C. is proud to continue associate itself with iconic projects. Since our establishment in 2003 with our Based in Dubai, we have been following the vision of its leaders and have been involved in all aspects of maintenance and electromechanical works.

Because of our commitment to providing high quality work, on time and within budget, our client base continues to grow and most of our clients repeatedly award work to Al Shumookh. They know we have the skills, resources and expertise, and most importantly, the ability and the will to complete their projects at the highest standards, on time.

As of mid 2009, we had a large multinational workforce in excess of 500 employees. Our equipment fleet is amongst the largest in the Dubai with the latest equipment backed up by highly professional teams who continuously monitor, service and maintain this fleet.

Safety, Quality and the Environment are among the most important concerns of our company. Al Shumookh follows stringent safety regimes and quality procedures and strives to continuously improve its performance.

In 2003, Al Shumookh done the small works after the few months we do the lot of project in all over UAE.

The journey from 2003 till today has been very challenging. Thanks to our loyal team of workers and professionals, we have succeeded in proving that we can deliver on our promises that we can rise to the challenge and excel in our performance to the satisfaction of our clients.

Kannan Ravi
Introduction

We Al Shumookh Electromechanical Works L.L.C. introduce ourselves as one of the leading MEP companies in the UAE. Established in year 2003 with an aim to cater the requirement of the Customers.

To link the electrical needs of a large project to its mechanical applications is a hard task. This can only be made easy if an expert team provides both at the same time. It is definitely a major advantage tool that Al Shumookh possesses all what is necessary to create an integrated MEP project. In short summary, we can cover various mechanical systems:

**Power stations and power distributions**

Al Shumookh also processes all the capabilities and resources in constructing power stations which can include generators, transformers and auxiliary equipment according to customer’s specifications and international standards. Our teams go the extra step to build medium and low voltage distribution with stations complete with transmission lines set up that conform to international safety regulations.

**Pumping stations, sewage and waste water treatment plants, Plumbing Systems**

Which comprise of huge pumps and tanks require large resources both in terms of equipment and multi-facet. Al Shumookh is definitely the ideal choice. In addition to the electrical needs of the plant, Al Shumookh provides complete plumbing stations.

**Fire Fighting systems**

Have become highly specialized given the international regulations and the different harsh environments where Al Shumookh operates. We definitely use the most up-to-date systems to ensure that the stringent safety requirements are met.

**Building & Commercial Projects**

Al Shumookh has specialized teams that work in commercial and residential projects. The company provides complete circuit installations with the proper switchboard and auxiliary equipment according to client needs. These include lighting systems, power generators, UPS systems etc.

**Industrial Projects**

Complete systems for plants which can include power distribution and switchboards, emergency power stations, UPS systems etc.

**Low current systems**

Need complex studies simple practical maintenance. Al Shumookh puts special attention to achieve major networks such as fire alarm, emergency lighting, CCTV, Access control, Structure cabling tel, etc.

**HVAC**

Our special team is well trained with a background of 18 year experience in the field of HVAC such as chillers plants, central cooling, kitchen hoods, fire/smoke extraction etc..
Perspective

We take this opportunity to introduce ourselves as distinguished leaders in the Electro Mechanical field.

Our Commitment

We take this opportunity to introduce ourselves as distinguished leaders in the Electro Mechanical field.

M/s Al Shumookh Electrometrical Contracting is experienced staff has interacted with several state of the art contractors and participated in the management and execution of landmark and reputable projects.

The acquired expertise in the different trades of our business is the asset to provide the highest level of professionalism in planning and delivering exceptional services to our clients.

Our commitment is to continue our strategies and contribution to the development of the United Arab Emirates economy and welfare projects.

Our Mission

With a collective experience started many years back, Al Shumookh mission is to be Pre-engineered Electro-Mechanical solutions to provide fast response, cost savings, low maintenance cost, and longer operating life of all project conditions and requirements.

With our strategy, Al Shumookh has gained its reputation as one of the National and Regional leading Electro-Mechanical contracting companies to perform and execute the extremely toughest fast track Mega projects. Applying local and international codes and standards, with high safety records and integrity measures.

Well Equipped for the Third Millennium

Strong and well integrated Al Shumookh moves into the 21st century with firm steps. It is continuously upgrading its technical know-how by working in conjunction with international consultants and contractors in its field and applying latest technologies. It is keeping up with the increasing stringent international standards. In fact Al Shumookh is, and will remain the main “nerve” in the sophisticated Electro-Mechanical work that covers the scope of some big projects in the Middle East.

Total coverage

Al Shumookh ties up all aspects of the Electro-Mechanical field. We rely on our ability to integrate our vast resources to englobe the multi facets of electro mechanics. Our accomplishment has established us as an expert leader in the regions business of Electro-Mechanical contracting.

Al Shumookh broadened through its capabilities by strengthening engineering know how in areas related to process, power systems, mechanical engineering, instrumentation and controls, communications, waste water treatment.

In addition, the company offers a comprehensive range of famous brand names to cover the large needs of projects. All this is insured by our staff’s familiarity with all the products of our partners and equipment vendors.

Our total coverage spreads over a wide geographical area. We have performed works all over the United Arab Emirates.
Our vision

We seek to become the leading company in the Middle East by executing projects in a safe, timely and quality-oriented manner, thus emerging as the most preferred solutions provider for our clients.

We strive to be the most preferred property developer by building better living environments and exceeding customer expectations.

Human beings include not only our clients and stakeholders but also the entire human race.

Nature encompasses not only the immediate living environment but also our global environment.

The future requires thinking ahead for future generations through the management philosophy of sustainability.

Global partner means a company that provides a better value and trust for its clients in the global market.

To continually evolve our unique capabilities to strive sustainable growth in business and to be superior constructor and service provider in all our operation across the region.

"The future requires thinking ahead for future generations"
